ACADEMIC SUPPORT LAB TUTORING SERVICES

Tutoring at the Academic Support Lab is available for assistance with Math, Biology, Accounting, and Writing. Tutoring is free for registered MDC students and is available on a walk-in or appointment basis. Tutoring sessions may be provided in a one-on-one or group setting.

OUR MISSION

Our goal at the Academic Support Lab is to help students reach their academic potential. Students are expected to be engaged and active participants in their learning process. Tutors will guide students through this process and help their capacity to work independently.

BEFORE THE TUTORING SESSION

Academic skills are best learned through practice, so come to your tutoring session ready to collaborate! Arrive prepared with specific questions you want to ask the tutor. Bring instructions for the assignment as well as relevant class-related material such as the text.

SPECIFIC SERVICES OFFERED

MATH

Our math tutors assist students in developing critical thinking and problem-solving skills necessary to successfully grow in STEM-related fields.

ACCOUNTING

Our accounting tutors prepare students to understand and apply accounting concepts and principles necessary for success in the business world.

WRITING

Our writing tutors help students to develop proper grammar, brainstorming, and writing skills necessary for effective expression and communication. Specifically, writing tutors can assist students in developing essays, research papers, blog responses, job applications, resumes, cover letters, and scholarship applications.

OUR TUTORS

The tutors at the Academic Support Lab are qualified professionals who are experts in their respective fields. While many students like to work with a tutor on an ongoing basis, we encourage students to work with a variety of our mentors over the course of the academic year.
