Patience and flexibility

Two Questions

CIOL

Center for Institutional and Organizational Learning

Are you?

Question 2

Training Objectives

- Define what Telepresence modality is
- Telepresence in Action
- Best practices and potential pitfalls to avoid
- Engagement technology tools to keep students involved in learning
- List of equipment by campus
- How do you get help

Flow of the webinar

Part 1: What is telepresence and Best practices

Pause for Questions

Part 2: Student Engagement Tools

Pause for Questions

Part 3: How to get support and what is available
in the classrooms

Posted on: Monday, September 7, 2020 2:42:10 PM EDT

Last day to register for a live webinar is the day before the session.
 You will receive an e-mail with the log on instructions prior to the Webinar.
 Please review pre-requisites in MDConnect.
 Sessions with low enrollment will be cancelled.
 We appreciate your commitment to attend the sessions that you enroll in.

New! Sessions are offered as early as 7:00AM as well as evenings and on Saturdays!

Sessions you don't want to miss					Student Engag

CIOL

Center for Institutional and Organizational Learning

Activity

What is Telepresence modality?

Telepresence is a course design format that mixes in-person classroom teaching with live videoconferencing, with groups of students rotating who attends in-person.

Telepresence in Action Video

**So...Equipment will you have in
your classroom**

CIOL

Center for Institutional and Organizational Learning

CIOL

CIOL

Center for Institutional and Organizational Learning

The screenshot displays a Zoom meeting window. The main content is a product manual for the ELMO camera, model 6XTVLA09 R0-Xxx. The manual is titled "Using the product" and contains the following instructions:

- 1. Turn on the power.**
Connect the AC adapter. The power button will be **Blinking red (About 1 minute)** and then **Turns red**. Press the power button (or the power button on the remote) to turn the camera on. The power button will then **Turns blue**.
- 2. Select the area.**
Need to be configured when the product is started for the first time or when the initialization is performed.
- 3. The camera image is displayed.**
- 4. Place an object to be displayed under the camera.**

The manual also includes a "Zooming" section with diagrams showing how to adjust the camera's field of view. On the right side of the Zoom window, the "Share Camera" button is circled in red. Below it, the text "Unit: 50" and "L-12W" is visible. The Zoom interface at the bottom shows icons for chat, mute, video, and a close button.

CIOL

Center for Institutional and Organizational Learning

Campus	List of available equipment in the classrooms
Padron	Document camera and overhead web camera with build in microphone
Kendall	Computer, HoverCam, Projector... etc.
Hialeah	Webcam (ceiling mounted), Document camera, ceiling mounted microphone
Medical	In ceiling camera and microphone. Writing pad, mouse pen and Hovercams available upon request.
Wolfson	Camera, computer, wacom tablet, microphone, projector, Document Camera is some classrooms
West Campus	Camera with Microphone
Homestead	Document Camera and Ceiling Camera with Microphone
North Campus	Document Camera and Ceiling Camera with Microphone

Equipment Training Check with your campus

Wolfson is inviting faculty
to schedule an
appointment to visit a
telepresence classroom to
get hands on experience in
using the equipment.

Envision

First Session Teaching with Telepresence Modality?

- **Arrive to campus- Check temperature/Questions**
- **Walk to your classroom/put your mask on 😊**
- **Log on to the computer, Turn on the projector, available equipment**
- **Log on to Collaborate Ultra, configure the Camera, Microphone, Document Camera, Join your session, etc.**

Envision

First Session Teaching with Telepresence Modality?

So essentially, you will keep doing the same
(teaching using collaborate ultra)
but now in the classroom

YES!

**Do exact things you have been doing when
teaching remotely except**

Document Camera to write and share with both groups

One big difference that you need to **manage** two audiences: remote and in-person groups and keep them both **engaged**

Best practices and potential pitfalls to avoid

**What should I do before my
first class?**

**Visit your
campus/classroom before
the 28th**

Attendance schedule

Your attendance policy

Bb homepage as an announcement

via e-mail

Have a clear
plan/outline/agenda for your
first meeting and activities.

As we always, practice with your students any new tools you will use.

Same thing here.

Spend the first 10 minutes or so testing what works best for you and your students.

Share Screen/document camera

Ask students to speak up

Use the Chat feature

Don't plan on using your own equipment during the first session

Remember you might not have time to set them up as the College will be cleaning the classrooms between sessions

- Have a backup plan in case there are connectivity or technical issues. Set clear expectations in case of any technical issues:
- i.e. send an e-mail to students, post an announcement on the Bb course homepage, to have students work “asynchronously” (offline).

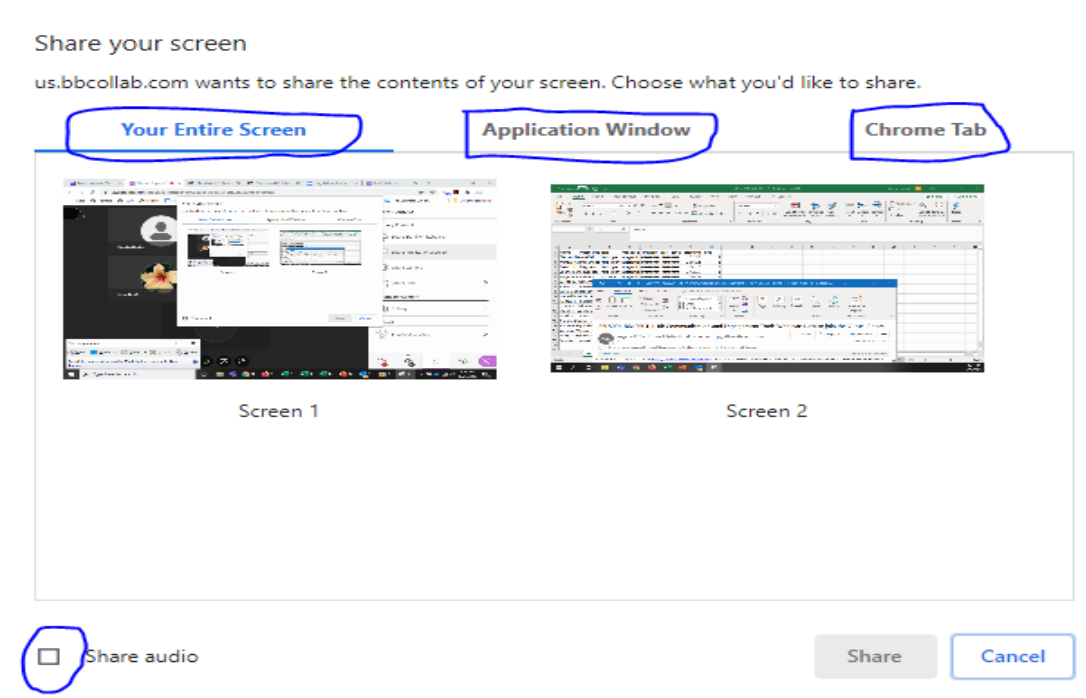

**How do I share materials
with students, such as
handouts and presentation
slides?**

- Writing on the whiteboard in the classroom might not work well for you
- **Use the Document Camera or other interactive tools**

Convert your PPTs to PDF files

- You can use Collaborate Ultra to share your screen as you present your PowerPoint. Have your PPT on a flash drive or in a place to access it easily (Bb).
- Note: you won't be able to see the Chat area.
- Ask one student to monitor the Chat area and inform you of any posted questions to address.

- Share videos same way you have been when teaching remotely. Share your desktop, be sure to select the “share audio box”, and play the video in a new tab.

How do I ensure all students feel involved and engaged in the classroom?

Flipped classroom teaching strategy

This way, you can use the class time for facilitating meaningful discussions and interactive activities.

Encourage students to interrupt you and turn on their microphones to speak up at any time during the session to ask questions and participate in the class discussion.

- remember to repeat the questions.

Same for students in class.
Encourage them to ask
questions

After the first week, if possible,
invite the in-person students to join
the virtual room via their laptops or
smart phones

Discover what works best for you as you work with this modality and trying to engage students.

- Is it best to bring the virtual class to the in-person class or vice versa? How would you know what works best?

Part 3: Engagement Tools

Activity

**Why it is important to
engage students**

Digital Tech Tools Student Engagement

Flipgrid, Kahoot
Quizlet, Neapod
Collaborate Ultra Groups features
Packback
PlayPosit
VoiceThread
Jamboard
etc.

Flipgrid

Kahoot

Kahoot

- What is it?

Flipgrid

- **What is it?**
 - Flipgrid is a simple, free, and accessible video discussion experience for instructors and learners.

Comments

I have used most of these tools. They're fun and the students really enjoy them 

I do a 2-question Kahoot quiz for each textbook chapter. Winner gets 5 points toward an exam

LOVE that

Fun

I like that

CIOL

Center for Institutional and Organizational Learning

The Attachment Style Inventory

Strongly Agree = 5 Agree = 4 Neutral = 3 Disagree = 2 Strongly Disagree = 1

1. It makes me nervous when my partner gets too close (emotionally).
5 **4** 3 2 1
2. I often worry that my partner will stop loving me.
5 4 3 2 1
3. An argument with my partner doesn't usually cause me to question our entire relationship.
5 4 3 2 1
4. When I show my partner how I feel, I fear he/she will not feel the same about me.
5 4 3 2 1
5. I find it difficult to emotionally support my partner when he/she is feeling down.
5 4 3 2 1
6. I don't feel the need to act out (misbehave) much in my romantic relationships.
5 4 3 2 1
7. I fear that once someone gets to know the real me, he/she won't like who I am.
5 4 3 2 1
8. My independence is more important to me than my relationships.
5 4 3 2 1
9. When my partner is upset I naturally know how to help him or her calm down.
5 4 3 2 1

Jamboard

Jamboard

Activity/How to use it

Activity

Breakout groups

Discuss some ideas!

- Turn on your microphone or use chat area
- Introduction (name, campus, discipline, answer the questions)
- Assign a person to report out
- Assign a person to take the time (10 minutes)
 - Give group reminder at 2 minutes left)
- HAVE FUN!

Activity

Action Plan:

From the list of practices we provided you, which techniques do you plan on implementing?

Discuss a few.

What other questions/concerns about this modality you may have?

Report Out

- **Each group will report out about a few of their ideas about each tool.**

How do you get help?

West	305-237-8929	westhelpdesk@mdc.edu
Wolfson	305-237-3232	whelpdesk@mdc.edu

Each campus will be hiring additional staff to provide additional technical support for the use of telepresence.

Campus	Can faculty bring their own tablets to use in the classroom?
Padron	Yes
Kendall	Yes
Hialeah	Yes, they need to provide their own video cable to connect to system (HDMI or VGA)
Medical	Yes
Wolfson	For personal use if needed, but we recommend using provided computers for official conducting of classes as they are already setup to interact with the rest of the Telepresence equipment.
West	Yes
Homestead	TBD- Please contact your CNS dept.
North	Yes

**How do you get help with Bb
and/or Collaborate Ultra?**

**Report an Issue as needed
(pls share with other faculty)**

Live Chat (24/7)

Post Workshop Details

THANK YOU!

FPD Project: Faculty will record a 4-5 minutes video in ***Collaborate Ultra*** about one of the sessions that they conducted using the Telepresence modality.

The video will include:

What they did to prepare for a successful class session (preparation plan)

Class session overview: Lesson topic, objectives for that day, etc.

Show and explain the different activities that they did to engage students – show the created artifacts in the video and how they used them with students

What worked and what didn't work- talk about their overall experience

What improvements they plan on implementing in following sessions

To faculty: Be innovative and creative!!!

Faculty will share their screen in Collaborate Ultra to record the video. The video links will be posted to the CIOL ORG and due in two weeks after the Webinar.

Now I'm worried I have so much to do in 12 days..

I'm scared students won't come. I surveyed students in week 1, and an overwhelming majority said they did not want to attend. I've had lots of worried student since the email came out I think if I ask them also to bring their laptop I will have complaints.

CIOL

Center for Institutional and Organizational Learning

By now, you have heard that we will be entering Phase 2 of our Pandemic Outbreak Recovery Plan

DR. LENORE RODICIO | MDC PROVOST

0:03 / 5:54

CC Settings Full Screen

A video player interface showing a woman, Dr. Lenore Rodicio, speaking. The background features the Miami Dade College logo and an American flag. The video title is "By now, you have heard that we will be entering Phase 2 of our Pandemic Outbreak Recovery Plan". The speaker's name and title are "DR. LENORE RODICIO | MDC PROVOST". The video progress is 0:03 / 5:54. The player includes standard controls like play, volume, and full screen, along with Creative Commons (CC) and settings icons.
